Subject: Fwd: DSP Reclamation FYI

Got this from the BLM - sounds like they got the money to do the reclamation (this is Tony Aguire's site) this year!

Lynn, an update as we did not get to talk when you were in Richfield recently.

RFO is still awaiting guidance from USO on the certified letter to be sent to DSP with certified courtesy copies to all claimants of record. The anticipated process at this time is to send a letter that reiterates the effect of the BLM Noncompliance Order that was issued in 2006 for failure to reclaim outstanding disturbances for an expired notice. DSP will be given 30 days to reclaim the site. DSP will also be given notification that if he does not reclaim within 30 days, then BLM will complete the reclamation, account for the government's cost, and bill the operator and claimants for reimbursement. The letter will address that DOGM can also take appropriate action under State rules and that BLM's letter does not relieve DSP of any State requirements. I am hopeful that the letter will be ready soon, as RFO has the funds to reclaim the site in this fiscal year, if that becomes necessary.

Michael
